INDUSTRIAL ENGINEERING AND MANAGEMENT

Date	16 APRIL 2026	Maximum Marks	50
Course Code	IM345AT	Duration	90 Min
Sem	IV Semester	Test-1	
MARKETING MANAGEMENT-SCHEME OF VALUATION			

	PART – A			
Sl. No.	**Questions**	**M**	**BT**	**CO**
1	Differentiate between marketplace and market space.	02	L2	1
	Marketplace = physical; Marketspace = digital/online (e.g., Amazon vs mall)			
2	What is the first step of content marketing.	02	L2	1
	Define goals / identify target audience			
3	Mention any two core concepts of marketing.	02	L1	2
	Any 2: needs, wants, demand, value, exchange, markets			
4	Mention any four characteristics of a good content.	02	L1	1
	Any 4: relevant, accurate, engaging, clear, consistent, valuable			
5	Differentiate between push and pull marketing.	02	L2	2
	Push = brand pushes to customer (ads/TV); Pull = customer seeks brand (SEO/content)			
	PART – B			
1	A newly launched health & wellness startup offering organic lifestyle products aims to build strong brand awareness through content marketing. Design a step-by-step content marketing strategy, clearly outlining: • Content formats (blogs, videos, podcasts, etc.) • Content themes • Distribution platforms (owned, earned, paid media) Metrics for performance evaluation	10	L3	1
	1. **Objectives** • Build brand awareness • Educate customers on organic lifestyle • Generate leads and conversions 2. **Content Themes** • Organic living & benefits • Health & nutrition • Sustainability & eco-friendly practices • Product awareness • Customer testimonials & expert advice 3. **Content Formats** • Blogs & articles (SEO) • Videos & reels (workouts, product demos) • Infographics (diet charts) • Podcasts (wellness talks) • E-books & webinars • User-generated content (reviews) 4. **Distribution Platforms** • Owned Media: Website, blog, email			

	• Earned Media: Social media, influencer mentions, PR • Paid Media: Social media ads, Google Ads, influencer promotions 5. **Metrics for Evaluation** • Awareness: Reach, impressions, website traffic • Engagement: Likes, shares, comments, watch time • Leads: Sign-ups, downloads • Conversions: Sales, conversion rate • Retention: Repeat customers, loyalty			
2	A travel agency specializing in adventure tourism wants to improve its targeted marketing. How should they create a buyer persona, and what factors (e.g., demographics, interests, online behaviour) should they consider?	10	L4	3
	Buyer Persona Creation for an Adventure Travel Agency 1. **Steps to Create a Buyer Persona** • Collect Data – surveys, website analytics, social media insights • Segment Audience – group customers based on common traits • Identify Goals & Pain Points – e.g., desire for adventure vs safety concerns • Build Persona Profile – give a name, background, and behavior details • Validate & Update – refine using customer feedback and trends 2. **Key Factors to Consider** a) **Demographics** • Age (e.g., 20–40 years) • Gender • Income level (ability to afford travel) • Occupation (working professionals, students) • Location b) **Psychographics (Interests & Lifestyle)** • Interest in adventure (trekking, scuba diving, skydiving) • Fitness and outdoor lifestyle • Risk-taking attitude • Preference for unique experiences over luxury c) **Online Behaviour** • Platforms used (Instagram, YouTube, travel blogs) • Search patterns (e.g., "best trekking places") • Content preference (videos, reels, reviews) • Booking behaviour (online packages, mobile apps) d) **Travel Behaviour** • Frequency of travel • Budget vs premium preference • Group vs solo travel • Preferred destinations (mountains, beaches, forests) e) **Pain Points** • Safety concerns • Budget constraints • Lack of information • Trust in travel agencies 3. **Example Persona** • Name: Adventure Arun • Age: 28, IT professional • Interest: Trekking, camping • Behaviour: Follows travel influencers, books online			

	• Goal: Unique, thrilling experiences • Pain Point: Safety and affordability			
3	A retail company has been using traditional marketing methods such as newspaper ads, billboards, and TV commercials. However, they are now considering a shift to digital marketing. Compare the benefits and limitations of both approaches and suggest a strategy for transitioning to digital marketing	10	L3	1
	Comparison: Traditional vs Digital Marketing 1. **Traditional Marketing** Benefits: • Wide reach (TV, newspapers) • High credibility and trust • Effective for mass audience Limitations: • Expensive (ads, printing, media) • Difficult to measure results • No precise targeting • One-way communication 2. **Digital Marketing** Benefits: • Cost-effective • Targeted advertising (age, location, interests) • Measurable results (analytics, ROI) • Two-way interaction (comments, feedback) • Global reach Limitations: • Requires technical skills • High competition online • Privacy concerns • Dependent on internet access 3. **Strategy for Transition to Digital Marketing** • Start with Hybrid Approach (use both traditional & digital initially) • Build website and social media presence • Use SEO & content marketing (blogs, videos) • Run targeted ads (Google, social media) • Leverage email marketing & influencers • Track performance using analytics tools • Gradually reduce traditional spending based on results			
4	How can businesses align Web Analytics KPIs with their organizational goals? Illustrate with examples.	10	L2	2
	Aligning Web Analytics KPIs with Organizational Goals 1. **Identify Business Goals** • Define clear objectives (e.g., increase sales, brand awareness, lead generation) 2. **Map Goals to Relevant KPIs** Choose KPIs that directly reflect each goal: • Sales Growth → Conversion rate, revenue, cart abandonment rate • Brand Awareness → Website traffic, impressions, reach • Lead Generation → Form submissions, sign-ups • Customer Engagement → Bounce rate, session duration, pages per visit			

	3. **Use SMART KPIs** • Specific, Measurable, Achievable, Relevant, Time-bound (e.g., increase conversion rate by 10% in 3 months) 4. **Use Analytics Tools** • Track KPIs using tools like Google Analytics, dashboards 5. **Continuous Monitoring & Optimization** • Analyse data regularly • Modify strategies based on performance			
5	Explain the key components of Search Engine Optimization (SEO), including on-page, off-page, and technical SEO. How do these elements contribute to improving website ranking on search engines?"	10	L2	2
	1. **On-Page SEO (Content Optimization)** • Optimizing elements within the website: • Keyword optimization (titles, headings, content) • Meta tags (title, description) • URL structure • Internal linking • High-quality, relevant content 2. **Off-Page SEO (External Factors)** • Activities outside the website: • Backlinks from other websites • Social media sharing • Influencer collaborations • Online reviews 3. **Technical SEO (Backend Optimization)** • Improving website performance and structure: • Website speed • Mobile friendliness • Secure website (HTTPS) • XML sitemap • Crawlability & indexing
