RV College of Engineering®
Mysore Road, RV Vidyaniketan Post,
Bengaluru - 560059, Karnataka, India

Date : 26.05.26	**CIE – II**	**Max. Marks**	**: 10 + 50**
Semester : IV	**UG**	**Duration**	**: 30 + 90 Min**
Course Title: MARKETING MANAGEMENT		**Course Code**	**: IM345AT**

Sl. No	Scheme and solution	M
	Part – A	
1.	What is meant by data-driven audience insight in Social Media Marketing?	2
A	Data-driven audience insight refers to the process of collecting and analysing user data such as demographics, interests, online behavior, engagement patterns, and preferences from social media platforms to understand the target audience better. It helps marketers create personalized campaigns and improve customer engagement.	
2.	List any four elements required for creating an effective social media campaign.	2
A	• Clear campaign objectives • Defined target audience • Engaging and creative content • Performance measurement and analytics	
3.	List any four important features available in Google Analytics for website performance tracking.	2
A	• Traffic source analysis • Bounce rate measurement • User demographics tracking • Conversion and goal tracking	
4.	Define Web Analytics and mention its importance in digital marketing activities.	2
A	Web Analytics is the process of collecting, measuring, analyzing, and reporting website data to understand and optimize web usage. **Importance:** • Helps understand customer behavior • Measures campaign effectiveness • Improves website performance • Supports better marketing decisions	
5.	What is meant by campaign analysis in E-mail Marketing?	2
A	Campaign analysis in E-mail Marketing refers to evaluating the performance of email campaigns using metrics such as open rate, click-through rate, conversion rate, bounce rate, and unsubscribe rate to determine campaign effectiveness and improve future campaigns.	
	Part – B	
1	Analyse how the Facebook Algorithm Filter evaluates content distribution. What specific practices are penalized (filtered out) and which ones are rewarded (propelled through)?	10
A	The Facebook Algorithm Filter determines which posts appear in users' news feeds based on relevance, engagement, and user interest. How Facebook Evaluates Content 1. User engagement history 2. Relevance of content 3. Type of content preferred by users 4. Timeliness of posts 5. Quality and originality Practices Penalized (Filtered Out)	

	• Clickbait headlines • Fake news and misinformation • Engagement bait ("Like, Share, Comment now") • Spammy or repetitive posts • Low-quality copied content • Excessive promotional posts Practices Rewarded (Propelled Through) • High-quality original content • Meaningful interactions and comments • Videos and live streams • Informative and engaging posts • Consistent posting • Content generating discussions	
2	Based on "The Content Lifecycle Matrix," how should a marketer adjust the objective, tone, and format of their content as a prospect transitions from the Early-Stage to the Late-Stage?	10
A	Early Stage • Focus on attracting attention • Provide educational information • Use simple and engaging language Middle Stage • Explain product benefits • Address customer problems • Build trust through valuable content Late Stage • Encourage conversion and purchase • Highlight testimonials and success stories • Provide offers, free trials, and demos	
3	Differentiate between traditional marketing analysis and web analytics-based marketing analysis with suitable examples.	10
A	**Aspect** / **Traditional Marketing Analysis** / **Web Analytics-Based Marketing Analysis** Data Collection / Surveys and interviews / Real-time online tracking Speed / Slow / Instant Accuracy / Limited / Highly accurate Customer Tracking / Difficult / Easy Cost / Expensive / Cost-effective Measurement / Estimated results / Measurable KPIs	
4	Design an E-mail Marketing plan for a newly launched online business targeting college students.	10
A	Objective Increase awareness, engagement, and sales among college students. Target Audience College students aged 18–25. E-mail Marketing Plan	

	1. Build Email List • Collect emails through website sign-ups • Offer discounts and free resources *2. Create Attractive Content* • Use youthful and creative designs • Include offers, contests, and product updates *3. Segmentation* • Segment users based on interests and purchase behavior *4. Personalization* • Use customer names and personalized recommendations *5. Campaign Schedule* • Send weekly newsletters and promotional emails *6. Mobile Optimization* • Ensure emails are mobile-friendly *7. Performance Tracking* Track: • Open rate • CTR • Conversion rate • Unsubscribe rate	
5	Evaluate the challenges faced in maintaining successful E-mail Marketing campaigns and suggest suitable solutions to improve campaign performance.	10
A	Challenges 1. Low open rates 2. Spam filtering issues 3. High unsubscribe rates 4. Poor email design 5. Lack of personalization 6. Inactive subscribers Solutions **Challenge** — **Solution** Low open rate — Use attractive subject lines Spam filtering — Avoid spam words and maintain sender reputation Unsubscribes — Send relevant and useful content Poor design — Use responsive email templates Lack of personalization — Segment audience and personalize emails Inactive users — Re-engagement campaigns

Course Title: MARKETING MANAGEMENT		**Course Code : IM345AT**

Sl. No	Scheme and solution	M
	Part – A	
1.	Define Click Through Rate (CTR) in E-mail Marketing.	2
A	Click Through Rate (CTR) is the percentage of recipients who click on links in an email compared to the total number of delivered emails.	
2.	What is Bounce Rate in Web Analytics and how does it affect website performance evaluation?	2
A	Bounce Rate is the percentage of visitors who leave a website after viewing only one page without any interaction.	
3.	List any four advantages of E-mail Marketing over traditional marketing methods.	2
A	• Low cost • Global reach • Easy performance tracking • Personalized communication	
4.	Define campaign optimization in Social Media Marketing and mention its purpose.	2
A	Campaign optimization is the process of improving social media campaign performance by analysing metrics and adjusting content, targeting, and advertisements. **Purpose:** • Increase engagement • Improve conversion rates • Reduce marketing cost • Maximize return on investment (ROI)	
5.	List any four benefits of using social media platforms for business marketing and customer engagement.	2
A	• Increased brand awareness • Better customer interaction • Cost-effective promotion • Improved customer feedback collection	
	Part – B	
1	Explain the stages of "The Customer Lifecycle Orbit" and discuss the statistical differences in selling to new prospects versus existing customers.	10
A	Stages of Customer Lifecycle Orbit 1. Awareness 2. Consideration 3. Purchase 4. Retention 5. Loyalty 6. Advocacy Selling to New Prospects • Requires high marketing effort • Lower conversion probability • Higher customer acquisition cost	

	Selling to Existing Customers • Easier due to trust and familiarity • Higher conversion rate • Lower marketing cost • Greater chance of repeat purchases Statistical Difference Research shows: • Selling to existing customers has nearly 60–70% success probability • Selling to new customers has only 5–20% success probability	
2	Detail the "4 Rs of Content Scaling." How does this strategic framework help marketers maximize the use of their content assets?	10
A	4 Rs of Content Scaling *1. Repurpose* Convert existing content into different formats. Example: Blog → Video → Infographic *2. Refresh* Update old content with new data and trends. *3. Repost* Share high-performing content again at different times. *4. Recombine* Combine multiple content pieces into a new asset such as an eBook or webinar. Benefits • Saves time and cost • Increases content reach • Improves SEO performance • Enhances audience engagement • Maximizes ROI from content assets	
3	Create a strategy to integrate Web Analytics and E-mail Marketing for improving customer engagement and business growth.	10
A	Strategy *1. Collect Customer Data* Use web analytics tools to track: • User behavior • Page visits • Purchase history *2. Audience Segmentation* Segment users based on interests and browsing behavior. *3. Personalized Email Campaigns* Send customized emails with relevant product recommendations. *4. Track Campaign Performance* Use analytics metrics: • Open rate • CTR • Conversion rate • Bounce rate *5. Retargeting* Send follow-up emails to abandoned cart users. *6. Continuous Optimization*	

	Analyze campaign data and improve content and timing. Benefits • Better customer engagement • Higher conversion rates • Improved customer retention • Increased sales and revenue	
4	Analyse the effectiveness of an E-mail Marketing campaign using KPIs such as open rate, click-through rate, unsubscribe rate, and conversion rate.	10
A	**Open Rate** Measures how many users opened the email. High open rate indicates attractive subject lines. **Click Through Rate (CTR)** Measures how many users clicked email links. Higher CTR indicates engaging content. **Unsubscribe Rate** Measures users opting out of emails. High unsubscribe rate indicates irrelevant content. **Conversion Rate** Measures users completing desired actions such as purchases. High conversion rate indicates campaign success.	
5	Analyse how the Facebook Algorithm Filter evaluates content distribution. What specific practices are penalized (filtered out) and which ones are rewarded (propelled through)?	10
A	The Facebook Algorithm ranks content based on: • Relevance • User engagement • Content quality • Timeliness • Interaction history Penalized Practices • Clickbait • Fake news • Spam posts • Engagement bait • Misleading information Rewarded Practices • Original content • Meaningful interactions • Live videos and reels • Informative posts • Consistent engagement
